### 'Khadija's Diary' revelations rock Islam.

**Lebanon, Jordan, Syria and Egypt vote to join Israeli hegemony.**

The discovery and rapid dissemination of what is purported to be the secret diary of Prophet Mohammad's wife has upended the Islamic world. The so-called "Nag Mohammadi Codex" was discovered buried beneath the Sphinx in 1912 during an archeological expedition and then safeguarded by an all-female cabal within Islam until it was leaked to media earlier this year. The discovery and contents of the diary have shaken the very foundations of Islam, causing widespread apostasy and a return to Golden Calf worship. Arab nations in the Middle East are clamoring to join Israel.
